

2018 Global Summit Presenters

DAY/TIME	SESSION	PRESENTER	BIO
June 14-15	All Day	Master of Ceremonies (MC) – Mark Taylor, AER	 <p>Mark Taylor has 30 years of experience in the oil and gas industry and is Executive Vice President of the Operations Division at the Alberta Energy Regulator. Prior to his EVP role, Mr. Taylor was Senior Vice President of Climate Policy Assurance/Closure & Liability.</p> <p>Mr. Taylor has extensive experience in Mechanical Engineering, and has worked in field and office roles for several companies, including Amoco/BP, Alberta Energy Company (AEC)/Encana, Sinopec Daylight, and Mosaic Energy. Over the past 20 years, Mr. Taylor has led teams responsible for developing unconventional oil and gas assets in western Canada. These assets include the Horseshoe Canyon coalbed methane, Horn River shale, Montney gas, and Cardium oil.</p> <p>Mr. Taylor graduated from the University of Saskatchewan with Mechanical Engineering. He has served on the Board of Directors for the Canadian Society for Unconventional Resources and has Chaired both the Stakeholder Engagement and Regulatory Committees. Mark has been engaged firsthand with stakeholders in developing strategies that allow for the appropriate and continued development of western Canada's resource plays.</p>
June 14 12:15 – 13:30	Lunch and Keynote	Carol Crowfoot, AER	 <p>Carol Crowfoot has been monitoring energy markets since 1981 and has been with the Alberta Energy Regulator since 2007. Ms. Crowfoot is the AER's Executive Vice President of the Strategy and Regulatory Division, and also its Chief Economist. She is responsible for leading the organization to the successful execution of its strategy, ensuring organization standards are developed and followed when designing risk-based regulatory requirements and delivering energy information, independent analysis, and supply-and-demand forecasts for Alberta commodities to all stakeholders.</p> <p>Ms. Crowfoot started her career at GLJ Petroleum Consultants. She was responsible for monitoring and understanding the fundamentals of supply, demand, and transportation issues in energy markets. She also provided commentary regarding market trends and participated in regulatory hearings and civil proceeding as an expert witness. In addition to her duties with GLJ Petroleum Consultants, in 2002 Ms. Crowfoot was named president of GLJ Energy Publications Inc., a firm specializing in market information and analysis of the North American natural gas industry.</p> <p>Throughout her career, Ms. Crowfoot has been a frequent presenter to industry conferences including the Canadian Energy Research Institute Natural Gas Conference, numerous Canadian Institute conferences, the Economics Society of Calgary technical seminars, Canadian Society of Petroleum Geologists Conference conventions, and Petroleum Society technical luncheons.</p>

Regulatory
Efficiency

Erin Maczuga, AER

Erin Maczuga has been working in the regulatory space for the past 15 years and has been with the Alberta Energy Regulator (AER) since 2008 after emigrating from New Zealand.

Mr. Maczuga is the AER's Director of Regulatory Efficiency within the Operations Division. He is responsible for leading the successful implementation of the AER's regulatory efficiency program by making decisions on improving Alberta's regulatory system that ensures protecting the public and the environment, improves industry performance at minimum cost, and contributes to Alberta's competitiveness advantage.

Mr. Maczuga started his career in private practice as a lawyer in New Zealand. Initially working in the areas of family and property law before moving onto the Intellectual Property Office of New Zealand where he dealt with the legal requirements of trade marks. In 2005, he joined New Zealand's Ministry of Health as in-house legal counsel. In this role, he was responsible for advising the Minister of the Crown on statutory responsibilities, human rights cases, service contracts, privacy matters, and prosecutions. In 2008 when Erin started at the ERCB, he worked in the areas of Liability Management and Compliance and Enforcement.

Throughout his career, Mr. Maczuga has been a frequent presenter to industry conferences on compliance and enforcement. With the creation of the AER, he was instrumental in establishing the AER's Integrated Compliance Assurance Framework and *Manual 013: Compliance and Enforcement*.

Americas
Panel

Moderator: Patricia
Johnston, AER

Patricia Johnston is the Executive Vice President of Legal, and is also General Counsel of the Alberta Energy Regulator. She leads a branch of 16 lawyers responsible for providing legal and business advice to all AER business branches and field offices.

Ms. Johnston is regularly consulted by the chairman and directors on corporate governance- related issues, including enterprise risk management, issues regarding the conduct of board meetings, annual financial statement review and disclosure, statutory and common law duties and liabilities of directors, and recruitment and appointment of directors. She was instrumental in helping to draft the Governance Charter and corporate governance-related materials and is the AER's liaison with the Alberta Public Agencies Governance Secretariat as well as the Chair of the AER's Ethics Committee. Additionally, she is responsible for

authoring and presenting the training and orientation materials for newly appointed directors and hearing commissioners. Her branch is also responsible for drafting and approving all AER administered legislation and regulations.

Prior to joining the AER, Ms. Johnston spent three years in private practice before holding various leadership and general counsel positions at FirstEnergy Capital Corp., ATB Investor Services, the Alberta Securities Commission, and the Alberta Stock Exchange, in roles that included legal, managerial, and corporate functions. She's also been involved in several industry and professional associations, most notably sitting on the Alberta Securities Commission Securities Advisory Committee, and chairing the Canadian Bar Association (Alberta Branch) Securities Law Section.

Ms. Johnston is a published author, having authored two books, *Alberta Securities Law Simplified* (in its 6th edition), *Ontario Securities Law Simplified* (in its 3rd edition) and several publications about Canadian securities and law and corporate governance requirements, and corporate restructuring transactions. For several years, she also instructed courses in securities law and regulation through the Canadian Securities Institute, Bow Valley College, and SAIT.

Ms. Johnston holds an LL.B. from the University of British Columbia and was admitted to the Alberta Bar in 1988. She has also completed a number of courses at the Canadian Securities Institute as well as being an institute-certified director (ICD.D) by the Institute of Corporate Directors.

David Monsma,
Aspen Institute

David Monsma is a Vice President at the Aspen Institute and Executive Director of the Institute's Energy and Environment Program. The Energy and Environment Program is an active and prominent convener of energy and environmental policy forums and roundtables including: The Aspen Institute Energy Policy Forum;

the Global Forum on Energy, Economy and Security; the Aspen-Hoover Climate and National Security Forum; and the Aspen-Nicholas Forum on Water Policy. The program also convenes, and David moderates, policy-testing dialogues on environmental security; wildlife and ocean conservation; energy resource governance; and the India and China Track II Dialogues on Climate Change. David is an Aspen Senior Moderator and moderates the Aspen Institute's Executive Seminar and the Wilderness, Nature and Society Seminar. An attorney by training, David has over 20 years of experience in environmental law and policy. He co-founded an Environmental Justice Law Clinic at the University of Baltimore School of Law, taught law and ethics at Loyola University in Maryland and served as director of business and environment at Business for Social Responsibility (BSR) in San Francisco. During the Clinton Administration, David was the environmental management task force coordinator for the President's Council on Sustainable Development (PCSD). David began his legal career working for the Maryland Office of the Attorney General and the Maryland ACLU before joining the U.S. Environmental Protection Agency in Washington, DC, as a program attorney in the Office of Toxic Substances and Pollution Prevention.

Gerry Baker,
Interstate Oil and
Gas Compact
Commission
(IOGCC)

Gerry Baker began his professional career as a journalist covering the Oklahoma State Senate, office of the governor and various state boards and commissions for the Oklahoma Business News Co. He was promoted to managing editor and state capitol bureau chief before leaving his position to join Kerr-McGee Corporation, an integrated energy company, in 1979. He

worked in positions of increasing authority in the Corporate Communication Department for the next 12 years.

In 1991, he launched an independent consultancy – Corporate Consulting, Inc. – specializing in strategic communication planning and implementation for high profile clients. In addition, he specialized in crisis communication management and has provided communication consulting services for a number of regionally significant events.

He joined the non-profit world in 1999 when he became the Director of Communications for the Oklahoma City Community Foundation, a billion-dollar grant-making philanthropic organization.

In 2002, he was named Associate Executive Director at the Interstate Oil and Gas Compact Commission, an organization representing governors of oil and gas producing states. He is responsible for all operational aspects of the organization.

The IOGCC is an 83-year-old organization with a mission of preventing the physical waste of oil and natural gas while ensuring strong environmental protections.

Paul Jeakins, BC Oil
and Gas
Commission,
Western Regulators'
Forum (WRF)

Paul's roles at the Commission have included Chief Operating Officer, Deputy Commissioner of Regulatory Affairs and Stewardship and Manager of Audits. In October 2011, he accepted his current position as Commissioner and CEO, where he is the strategic and operational leader of the Commission. Paul brings over 30 years of expertise to the role in organizational leadership, regulatory and strategic

planning, decision making and financial management. He is Chair of the Western Regulators' Forum Executive Board and Vice Chair of the Commission Board.

Based out of Victoria, Paul divides his work time between the Commission's offices located around the province as well as regularly presenting to local and international audiences on the topics of regulating shale gas and LNG.

Panel

Ryan Steadley,
State Review of Oil
and Natural Gas
Environmental
Regulations
(STRONGER)

Ryan Steadley joined STRONGER in June 2014 as the organization's first Executive Director. Under his leadership, STRONGER has conducted reviews in Alaska, Pennsylvania, Colorado, and Virginia; as well as developing guidance for reused and recycled fluids and produced water pipelines. Steadley is a graduate of the University of Oklahoma, and an avid outdoorsman and musician.

June 15
9:15 –
10:30 Collaborative
Solutions Chris Severson-
Baker, AER

Chris Severson-Baker is a Senior Advisor of Strategic Projects and Engagement with the AER's Science & Evaluation Branch. Since joining the AER in January 2017 Chris has led several large projects including the Fort McKay Recurrent Human Health Complaints Advisory Committee, where he represents the AER

as Co-chair and oversees the organization's role in fulfilling a 2016 commitment – in partnership with the Government of Alberta and the Fort McKay First Nation – to implement 17 recommendations designed to help improve air quality and odour conditions in the community.

His 22 year career has focused on environmental management in Alberta's energy sector and he has served as an advisor to government, industry, indigenous communities, and environmental NGOs. He has extensive experience in designing and leading collaborative interest based multi-stakeholder processes to produce innovative and enduring solutions to the key environmental issues that Alberta society faces in developing the Province's energy resources.

June 15
11:00 –
12:00 The ICORE
Journey –
working with
Mexico Kim Blanchette,
AER

Kim Blanchette is Vice President of Communications & National and International Relations at the Alberta Energy Regulator.

She has experience in communications and public affairs at the provincial, federal, and international level and has held positions with the Nova Scotia Department of Justice as well as the Nova Scotia Department of Energy.

Ms. Blanchette joined the Government of Canada in 2000, performing a variety of communications roles with the Atlantic Canada Opportunities Agency, including Ministerial support, regional office liaison, Director of Corporate Advocacy Communications, senior official speech coordination and multidepartment Pan-Atlantic and International events.

She has served as Consul (Political and Economic Relations and Public Affairs) at the Consulate General of Canada in Seattle from 2006-2008, representing Canada in Washington, Oregon, Idaho, and Alaska. She then moved to Veterans Affairs Canada as Acting Associate Director General of Communications where she worked the 90th Anniversary of the end of the First World War, the 65th Anniversary of D-Day, and new legislation for Allied Veterans.

Ms. Blanchette has also served as Regional Director, Issues Management and Communications (Atlantic Region) with the Canada Revenue Agency and as the Communications Manager for the Energy Resources Conservation Board, since 2011.

A past alumnus of the United States International Visiting Leaders Program, Ms. Blanchette was named one of the 50 Global Women in Energy in 2005 and has received awards for her work in media relations during the Swissair Flight 111 tragedy and for energy education in Nova Scotia.

June 15
11:00 –
12:00

The ICORE
Journey –
working with
Mexico

Martin Krezalek,
ICORE

Martin Krezalek is the Alberta Energy Regulator's ICORE Development Program Lead, responsible for the development of the operating model of the International Centre of Regulatory Excellence (ICORE).

Mr. Krezalek has spent the majority of the last 15 years working with government policy makers, regulators, legislators and elected officials as a Chief of Staff and executive advisor at executive leadership tables.

Mr. Krezalek's experiences as an on-the-ground regulatory practitioner help guide his work to build ICORE- a global leader with the vision and expertise to bring international regulators together to create solutions that define the future of energy regulation.

To help create an institution that will help regulatory authorities in Canada and around the world is an opportunity Mr. Krezalek holds with conviction.

A hydrogeologist and environmental resource manager, Mr. Krezalek is also a proud father, husband, entrepreneur and Euro-Canadian.

June 15
12:00 –
13:30

Lunch
Keynote

Kevin Ball, AER

Kevin Ball has 20 years' experience in the oil and gas industry and is currently a Senior Advisor of the Integrated Decision Approach (IDA) Operational Delivery Group at the Alberta Energy Regulator. In this role, he works to transform how the Regulator receives and reviews information in a risk informed digital manner.

Prior to this, Mr. Ball was Senior Advisor, Reclamation and Remediation within the Closure and Liability Branch and was the project business lead on the first OneStop development.

Mr. Ball has extensive experience in conservation and reclamation policy development and regulatory delivery. He has served with the Government of Alberta as a Soil Specialist, Contaminated Sites Specialist and Reclamation Assessor. Most noteworthy was Mr. Ball's contribution in changing the expectations and outcomes for Boreal Forest and Peatland reclamation in the Province of Alberta.

Mr. Ball comes from a background of agriculture and environmental science and graduated from the University of Alberta with Master's Degree in Soil Chemistry.
