

Action Plan for Decision 2003-070

EUB Action Plan – Follow up to EUB Decision 2003-070, Globex Resources LTD., Applications for licences for a sour gas well, sweet gas battery, and a natural gas pipeline, Gordondale Field

	ACTION ITEM	REQUIRED ACTION/COMMENTS	REFERENCE: D 2003-070	EUB PROCESS TO ENSURE FOLLOW-UP	STATUS & EVIDENCE
1	Weed Control	<p>Globex shall thoroughly clean all vehicles and equipment associated with construction of the 16-18 lease and pipeline right-of-way, prior to entry of such vehicles and equipment onto the lease and right-of-way. Cleaning must include, at a minimum, pressure washing of tires, wheel wells and chassis of light vehicles and vehicles transporting heavy equipment. Cleaning of heavy equipment must include pressure washing of blades, buckets, tracks, and undercarriage.</p> <p>Globex shall notify the EUB's Grande Prairie Field Centre in advance of moving construction equipment on to the lease site, in order to afford EUB Field Surveillance staff, at its discretion, the opportunity to inspect the condition of heavy equipment being moved on to the 16-18 lease.</p>	P. 7, S. 6.3, Paragraph 2	There is no specific inspection report documentation because EUB Field Surveillance does not have a system in place to record such inspections. Discussed vehicle cleaning procedures with Globex management and verified that the local contractor was equipped to perform the job appropriately. Visited the lease for an inspection during drilling on November 12, 2003 to verify that commitments were being met adequately.	<i>Complete.</i> Inspected construction equipment (photographs taken) prior to lease preparation on September 26, 2003.
