

ACTION PLAN FOR EUB DECISION 2005-058

**INTREPID ENERGY CORPORATION (INTREPID)
APPLICATIONS FOR LICENCES FOR A WELL LICENCE
STURGEON LAKE SOUTH FIELD**

	ACTION ITEM	REQUIRED ACTION/COMMENTS	REFERENCE: D 2005-058	EUB PROCESS TO ENSURE FOLLOW-UP	STATUS & EVIDENCE
1	Drilling and completion timing	The drilling and completion of this well is restricted to the period between October 15 and May 1.	p. 7, S. 6.3, Paragraph 7	Confirm that drilling occurred between October 15, 2005 and May 1, 2006.	<i>Completed.</i> EUB staff confirmed that drilling commenced on November 8, 2005 and the rig was released on December 11, 2005.
2	Flaring occurrences	Flaring occurrences are to be limited to those required to test the viability of the well as specified in the flaring permit and for servicing or maintenance operations if no other alternatives are available. Shut-in of production and other alternatives must be used whenever possible to keep flaring operations to a minimum.	p.4, S. 6.1, Paragraph 6 p. 13, Appendix, bullet 2	Confirm that a flare permit was applied for and issued prior to any flaring occurrences.	<i>Completed.</i> Flaring was only intended to be done during the completion of the well. Due to the well not being completed or put on production, Intrepid did not submit a flaring permit application. It was confirmed with the EUB's Grande Prairie office that flaring did not take place. The well was abandoned and cement plugs were placed on December 10, 2005 and the rig was released on December 11, 2005. Flaring as a result of production never took place.

3	Flaring notice	Intrepid must provide the residents with a minimum of 72 hours' notice of planned flaring events.	p. 13, Appendix, bullet 2	<p>The EUB will confirm that Intrepid conducted proper flaring notification.</p> <p>If the EUB receives an objection to flaring we would refer the matter to the EUB's Air and Safety Group to review the concerns and respond to the concerned parties.</p>	<p><i>Complete.</i> It was confirmed with the EUB's DDS system that no flaring notifications were submitted by Intrepid.</p> <p>The well was abandoned and cement plugs were placed on December 10, 2005 and the rig was released on December 11, 2005. So no future flaring will occur.</p>
4	Water well testing	Intrepid must test all water wells within the expanded EPZ for residents who agree to have the tests completed to establish a baseline for quality and quantity.	p. 4, S. 6.1, Paragraph 8 p.6, S. 6.2, Paragraph 6	Intrepid is to provide a copy of their water well testing program to the EUB.	<i>Completed.</i> The EUB has a copy of the program on file.

5	Public information records	Intrepid must revisit residents within the expanded EPZ to confirm or update the public information records. Intrepid must provide the updated ERP to the EUB for its review and approval prior to the spudding of the well.	p. 9, S. 7.3, Paragraph 3	Intrepid must provide the updated ERP to the EUB for its review and approval prior to the spudding of the well.	<i>Completed.</i> The EUB's Air and Safety Group received Intrepid's revised ERP on September 23, 2005 and upon completing the review, approved it on October 19, 2005.
6	Spill Co-op membership	Intrepid must provide written verification to the EUB to confirm that it is an active Area E Spill Co-op member prior to the spudding of the well.	p.6-7, S. 6.3, Paragraph 5	Intrepid must provide written verification to the EUB prior to the spudding of the well.	<i>Completed.</i> The EUB has proof of membership on file.

7	Air monitoring	Intrepid must secure three mobile air monitoring units on dedicated standby at the commencement of and throughout the drilling in the sour zones.	p.9, S. 7.3, Paragraph 2	Intrepid must provide proof that they secured three mobile air monitoring units on dedicated standby at the commencement of and throughout the drilling in the sour zones.	<i>Completed.</i> Confirmed with the review and approval of the revised ERP.
8	Insurance	Intrepid must provide copies of written documentation verifying that 100 per cent insurance coverage for this well is in place prior to the spudding of the well.	p. 10, S. 8.3, Paragraph 2	Intrepid must provide proof of insurance prior to spudding of the well.	<i>Completed.</i> Proof of insurance was provided to the EUB prior to the spudding of the well.
