Attention: Ms. Anastasia Shukalkina

Dear Ms. Shukalkina

**Re: White Spruce Pipeline Project
AER Decision 2018 ABAER 001
Condition Compliance – Condition 3 of the Decision**

TransCanada PipeLines Limited (TransCanada) is providing this letter to inform the AER that Construction for the Project was completed on March 27, 2019 and to confirm condition compliance with Condition 3 of Decision 2018 ABAER 001 (Decision) for the White Spruce Pipeline Project (Project). Condition 3 of the Decision (Condition 3) states:

If a trench must be left open overnight or unattended, sloped subsoil ramps must be placed at the ends of the open trench to create egress for wildlife that might enter the trench.

During construction activities, the Project did build sloped subsoil ramps at the ends of open trenches that were left open overnight or unattended, to create egress for wildlife that might enter the trench.

Should the AER require additional information with respect to compliance with Condition 3 please contact Stefan Skocylas at (403) 920-7695 or email Stefan_Skocylas@transcanada.com.

Sincerely,

Stefan Skocylas

**Stefan Skocylas
Regulatory Project Manager, White Spruce Pipeline Project
