

Supply and Disposition of Natural Gas
Unit = 10³ m³

'GAS','PROCGAS','PURCHGAS','ACID-G','ACGAS','CO2','N2'
ENTGAS\SOLVENT'

Table with columns: SUPPLY, Opening Inventory, Production, Receipts, Field Gas Use, Processed Gas Use, Closing Inventory, Adjustments. Rows include various production and receipt categories with detailed activity type and facility ID filters.

COMMERCIAL STORAGE POOLS table with columns: Field Code, Field, Pool Code, Pool Name. Lists various storage pools like Nisku E, Glauconitic-M5M, Cardium CCC, etc.

CALCULATED -- Opening Inventory + Total Production + Total Receipts - Total Field Use - Total Processed Gas Use - Closing Inventory + Adjustments

Run Date: 29 May 2018

DISPOSITION

Table with columns: Alberta Use, Injection (Enhanced Recovery), In Situ Facilities Use, Oil Sands Facilities Use, Total Alberta Use, Other Canada Removals, USA Removals, Offshore Removals. Rows include residential, commercial, industrial, and various injection and removal categories.

Run Date: 29 May 2018

Summary table with columns: Total Removals from Alberta (10³ m³/day), Reporting Adjustment (as percent), and Total Natural Gas Disposition. Includes calculated values and annual averages.

Note: Removals from Alberta are calculated by prorating the total pipeline border deliveries to market destinations based on Removal volumes provided by Gas Removal Permit holders. These Removals may refer to the reported disposition to the first destination outside of Alberta. This may not be the final market.
