Calgary, AB T2P 0R4

Attention: Ms. Anastasia Shukalkina

Dear Ms. Shukalkina

**Re: White Spruce Pipeline Project
AER Decision 2018 ABAER 001
Condition Update – Condition 4 of the Decision**

TransCanada Pipelines Limited (TransCanada) is providing this letter to update the Alberta Energy Regulator (AER) on compliance with Condition 4 of Decision 2018 ABAER 001 (Decision) for the White Spruce Pipeline Project (Project). Condition 4 of the Decision (Condition 4) states:

At wildlife migration or travel corridors identified by TransCanada or the AER, TransCanada must install breaks in windrows to allow wildlife movement across the project footprint.

TransCanada understands the intent of Condition 4 of the Decision is to reduce potential effects of the Project on wildlife in the vicinity of the Project, especially during construction. TransCanada has updated the Project-specific Environmental Protection Plan (EPP) Rev. 5 to address Condition 4 as follows:

Install breaks in windrows at wildlife migration or travel corridors identified by TransCanada or the AER, to allow wildlife movement across the Construction Footprint.

Should the AER require additional information with respect to compliance with Condition 4 please contact the undersigned at (403) 920-8078 or Paige Dodd at (587) 933-3573 or email paige_dodd@transcanada.com.

Sincerely,

Dana Charlton, M. Sc., P. Biol.
