Alberta Energy Regulator  
Suite 1000, 250 – 5<sup>th</sup> Street SW  
Calgary, AB T2P 0R4

**Attention: Ms. Anastasia Shukalkina**

Dear Ms. Shukalkina

**Re: White Spruce Pipeline Project  
AER Decision 2018 ABAER 001  
Condition Update – Condition 5 of the Decision**

---

TransCanada Pipelines Limited (TransCanada) is providing this letter to update the Alberta Energy Regulator (AER) on compliance with Condition 5 of Decision 2018 ABAER 001 (Decision) for the White Spruce Pipeline Project (Project). Condition 5 of the Decision (Condition 5) states:

*TransCanada must use a qualified archeologist to provide training in the environmental orientation program to construction personnel on recognizing potential historical resource and traditional land use sites.*

TransCanada understands the intent of Condition 5 of the Decision is to protect potential historical resources or traditional land-use sites during construction. TransCanada confirmed training specifications with the AER Land-Use Officer on March 2, 2018 and has updated the Project-specific Environmental Protection Plan (EPP) – Rev. 5 to address Condition 5, as follows:

*A qualified archeologist will provide training in the environmental orientation program to construction personnel on recognizing potential historical resource and traditional land use sites.*

Should the AER require additional information with respect to compliance with Condition 5 please contact the undersigned at (403) 920-8078 or Paige Dodd at (587) 933-3573 or email [paige\\_dodd@transcanada.com](mailto:paige_dodd@transcanada.com).

Sincerely,

Dana Charlton, M. Sc., P. Biol.
