ALBERTA PRODUCTS PIPE LINE LTD

APPLICATIONS NO. 001-00390867 and 1891278

STATEMENT OF CONCERN NO. 30700

Dear Sir/ Madame:

You are receiving this letter because you filed a statement of concern about Applications No. 001-00390867 and 1891278. The Alberta Energy Regulator (AER) has reviewed your statement of concern, along with the application, the applicable requirements, and other submissions or information about the applications. The AER has decided that a hearing is not required under an enactment, or necessary, to consider the concerns outlined in your statement of concern.

In its review of your concerns, the AER considered the following:

- Your concerns about entry access and compensation are outside of the AER's jurisdiction, and should be addressed by the Alberta Surface Rights Board.
- Your concern regarding the plane flying over the yard daily does not specify how you are negatively impacted. Further, Alberta Products Pipe Line Ltd (APPL) has indicated that once the pipeline is operational the route will be flown at weekly intervals at a height of approximately 500 feet.
- APPL will be constructing the new pipeline adjacent to its existing Right of Way (ROW), using the existing ROW where possible for temporary work space in order to reduce the need for new ROW space.
- APPL is required to meet all environmental and regulatory guidelines and requirements.

- The objections raised in your statement of concern have been addressed to the AER's satisfaction.

Based on the above, the AER has concluded that it is not necessary to hold a hearing before making its decision on the applications. The AER has issued the applied-for approval and licence and this is your notice of that decision. Copies of the approval and licence are attached. Under the *Responsible Energy Development Act* an eligible person may file a request for a regulatory appeal on an appealable decision. Eligible persons and appealable decisions are defined in section 36 of the *Responsible Energy Development Act* and section 3.1 of the *Responsible Energy Development Act General Regulation*. If you wish to file a request for regulatory appeal, you must submit your request in the form and manner and within the timeframe required by the AER. You can find filing requirements and forms on the AER website, <http://www.aer.ca/regulating-development/project-application/regulatory-appeal-process>.
