Compliance Assessment Categories

This table below contains a description of the various categories associated with Compliance Assessment Indicators

Compliance Assessment Category	Description
Anomaly	The data reported to PETRINEX appears outside the expected norm, and could indicate that noncompliance with an AER measurement and/or reporting requirement **may** be occurring.
Conditional	An AER- issued approval would/may be required for the business process that has been identified as occurring at the facility.
Error	The data reported to PETRINEX is in noncompliance with and AER measurement and/or reporting requirement.
